

## **ARC REMINDER FOR RESIDENTS**

Many of us are contacting our insurance carriers and getting inspections, following the massive hail storm last week. Some residents have incurred much more than just glass breakage and shredded screens.

The Board requests that you fill out an ARC form for any work that is necessary to restore your home, as required. We will expeditiously evaluate all ARC Requests (less than the 30 days required on the form) for work due to storm damage. If paint is required, please contact Dave Littler on how to proceed (in addition to submitting an ARC Request). The ARC form can be obtained from the Saxony web site.

Hiring contractors and timing of the work is a challenge following an event like this. If you are already working on corrective measures, please fill out an ARC Request as soon as possible, and submit it to Dave. Management is required to maintain a record of all exterior modifications for the Association records.

Thank you,

Craig, Sean, Maria and Dave
